Important Reminder:

If you plan on boarding your pet with us, it is imperative that we receive an up-to-date vaccination record prior to your pet's stay. This can be obtained through your Veterinarian's office. A copy must be faxed, e-mailed, or mailed at least *one week prior* to your pick-up date. Without this necessary documentation, your dog cannot be boarded and your reservation will be cancelled. These records are necessary for your pet's protection.

Thank you for your cooperation in this matter.

Regards,

Janet
